

Hull City Council is working in partnership with the Dollywood Foundation

**My Book of Numbers, Shapes and Colours** is full of vocabulary which will help your child to describe things - such as their shape or colour. It has been written by the same author as 'Peely Wally' which is also part of the Dolly Parton Imagination Library.

**Painting:** encourage you child to paint and explore different colours. What happens if they mix any of the primary colours together? What colours do they need to make **orange** or **green**?

If you are uncertain about using paint make sure that you use water soluble paints as these should wash off!

## COLOUR MIXING CHART

If you want to share more books about colour why not try the following:
